SPECIAL OFFERINGS FOR A LIMITED TIME ONLY

Listed here are groups of plants that are too few in number to put into our regular catalog. They are sold on a "First-Come First-Served" basis. We ask you to name second choices or allow us to substitute in the event of prior sale.

UNFLOWERED SEEDLINGS

| CROSS NUMBER | | POT SIZE | PRICE PER PLANT |
|--|---|----------------------------|-----------------------|
| 2 | LC. EMINENCE "Variety Outstanding" X C. AMABILIS | 1 3/4" 2 1/2" 3 1/2" | 1.50 3.00 8.00 |
| Large well formed flowers carried on a spike bearing three to six blooms was the aim in making this cross. Both parents are very productive with a minimum of lighting control, season of bloom can be readily delayed until Christmas. These seedlings are rapid growers and should flower at an early age. Color will be a rich lavender with very dark lip. | | | |
| 6 | LC. TRIDON X C. ANNIE J. LINES | 1 3/4" | 1.75 |
| This is a mating between two very fine flowers. Lc. Tridon is a large flower with very brilliant, yellow eyes set in a large dark lip. The other parent, C. Annie J. Lines is known by everyone for its beautiful very dark almost fuchsia purple flowers. The cross was made in January and season is expected to be mainly Winter but with the possibility of flowering twice a year as both parents usually do. (Limited quantity.) | | | |
| 7 | LC. COLEMAN BERWICK (Lc. Hertha X C. Belgica) | 2 1/2" | 3.00 |
| Very fine dark flowers with an excellent shape and texture that greatly resemble Lc. Governor Gore. Season is December and mid-winter. (Limited quantity.) | | | |
| J-7 | VANDA SUAVIS "Var. Broadview" X V. TRICOLOR | 5" | 5.00 to 7.50 |
| Very vigorous seedlings that should produce quantities of very pretty and fascinating bloom in a range of bronze to spotted light lavender colors. These plants have a spread of at least 12" across the leaves and should flower within a year. | | | |
| 13 | C. ALTADENA, FINE VARIETY X C. AMABILIS | 2 1/2" | 3.00 |
| Very heavy production of large flowers having dark lips. Season is late Fall — vigorous grower. | | | |

| CROSS NUMBER | | POT SIZE | PRICE PER PLANT |
|-----------------|---|--------------|-----------------------|
| 14 | C. JESSICA DRAGONETTE (C. Barbara Billingsley X C. Intertexta Juliettiae) A freeing blooming Mid-Winter pure white. Growth is exceptional — sepals and petals are paper white and the lip a slight touch of lemon yellow in the throat. | 3 1/2" 5" | 12.00 18.00 |
| 16 | C. TITYUS X BC. HARTLAND A cross between two very superb flowers. BC Hartland is very dark — almost a wine color. C. Tityus always flowers twice a year with lavender sepals and petals and a very dark lip set off by bright yellow eyes. | 1 3/4" | 1.75 |
| 46 | LC. FLORENCE PICKARD X LC. CANTARA ALBA Two very fine white colored lip parents were used in this attempt to produce a fine new white for the month of September. Lc. Cantara is characterized by an extremely large reddish-purple lip while Lc. Florence Pickard was selected for its extremely large sized sepals and petals and heavy producing qualities. Both flower in September. (Limited quantity.) | 1 3/4" | 1.75 |
| 49 | C. FLORENCE PATTERSON X LC. LUMINOSA AUREA This cross should produce very unusual flowers. The bright yellow sepals and petals and deep purple lip on Lc. Luminosa Aurea mated with the pure white C. Florence Patterson should make an item for the collector who desires something different. | 1 3/4" | 1.75 |
| 82 | LC. PRINCESS PRUDENCE X LC. SOUTH ESK. A very fine new hybrid from two of the best parents possible. Season is expected to be Winter. | 1 3/4" | 1.75 |
| 88 | C. JESSICA DRAGONETTE (C. Barbara Billingsley X C. Intertexta Juliettiae) Fine pure white — Later crossing of No. 14 using different parents. | 1 3/4" | 1.75 |
| 255 | C. ALWYNII "Var. Jane Froman" X LC. HASSALLII ALBA "Cowans Var." F. C. C. A most outstanding white with contrasting rich dark lip. Season should be Winter and Spring. | 1 3/4" | 1.75 |
| 270 | LC. AVIGNON "Var. Flora" X C. DINAH, "A.M." Here we expect to obtain fine, dark exhibition hybrids for the month of May. | 1 3/4" | 1.75 |
| 299 | LC. VALLANDINA X LC. GLORIA Crossing these two dark parents should result in large, nicely shaped flowers for late Winter and Spring. | 1 3/4" | 1.75 |

| CROSS NUMBER | | POT SIZE | PRICE PER PLANT |
|-----------------|---|------------------|-----------------------|
| 307 | C. TRIUMPH X LC. GLORIA C. Triumph is a very dark, heavy textured flower; by this mating we expect a profusion of large, very dark hybrids in the Spring. | 1 3/4" | 1.75 |
| 308 | C. TITRIANAE X LC. PRINCESS PRUDENCE Winter flowers of excellent shape and lasting qualities will be the result of these seedlings. | 1 3/4" | 1.75 |
| 321 | BC. MRS. ROBERT PATTERSON X C. TRIANAE Fine large flowers during Winter holidays was the intention here. These are vigorous little seedlings and production is expected to be good. | 1 3/4" | 1.75 |
| 335 | BC. WENDOVER (Bc. Princess Patricia, F. C. C. A. O. S. X C. Trianae, "Var. Joy") The Brasso in this cross is one of the finest we have ever seen. Mating it with C. Trianae "Var. Joy" can not fail to produce good Winter bloom. | 1 3/4" | 1.75 |
| 342 | LC. MAX PALM X LC. DERRYANE Both of these parents were exceptionally fine with good texture and very rich colors. Season is expected to be Winter and variable. | 1 3/4" | 1.75 |
| 403 | D. ROI ALBERT (D. Antelope X D. D'Albertisii) This is a beautiful little novelty type with long sprays of chartreuse and white flowers. 10" to 12" high. (Illustrated on cover of A. O. S. Bulletin February, 1951.) | 3" | 2.50 and 3.50 |
| 414 | BC. MRS. ROBERT PATTERSON X C. BELGICA Var. Robert Doig Fine large lavender with a huge lip. Flowering season is January. | 1 3/4" | 1.75 |
| 435 | C. MAGGIE RAPHAEL (C. Trianae "Baldwin Hybrid Strain" X C. Dowiana Aurea) A remake of an old timer using two of the finest parents available. Not much needs to be said for this fine producer of dark orchids in the late Fall and Winter, as it always does its part in filling Christmas orders for hybrid orchids. | 1 3/4" 2 1/2" | 1.50 3.00 |
| 449 | C. ARDMORE X C. GIGAS Vigor, high production, dependability and Season are all rolled into each one of these seedlings. Plenty of good flowers during May and June is the result of breeding these parents. This is a repeat of an earlier identical cross which has proven all the above facts, and not just hopes. | 1 3/4" | 1.50 |

|-----|---|--------|-------|
| 547 | C. MARION PATTERSON (C. Marion Davies X C. Trianae "Broomhill's Variety") | 3 1/2" | 12.00 |
| | | 5" | 18.00 |

To best describe this fine pure white, we will just say it is identical to the famous "C. Barbara Billingsley" and it flowers from December to April. Growth habit is tremendous.

| | | | |
|-----|--|--------|-------|
| 577 | LC. GEORGE E. BALDWIN (C. Enid "Var. Orchidhaven" X Lc. Princess Margaret) | 2 1/2" | 3.50 |
| | | 3 1/2" | 10.00 |
| | | 5" | 15.00 |

One of the finest hybrids ever raised. A very free producer of large well shaped bloom. Here in Florida this hybrid flowers nearly all the year round, but is predominately a late Spring bloomer, with a big share of its bloom in May and June and a secondary crop in September. These are very vigorous seedlings. (Limited quantity.)
